To Merchants, Manufacturers and Others.

Have you ever considered the advantage of having a Type-Writer in your office? Many have added the Type-Writer to their equipment, and have extended their business and increased their profits by its use.

Do you know that an ordinary user of the Type-Writer can do in one hour as much work as would take two or three hours to write with the pen?

Do you know that with the Type-Writer you can make a complete letter quicker than a penman can dot an "i" after the "i" is made?

Do you know that an office boy can learn to use the instrument, and in a very short time be able to do a great deal of your writing?

Do you know that you can learn to use the Type-Writer rapidly and well in a short time? thereby saving your own time, which is worth more to you than that of any of your employees. You may thus be released from desk drudgery, and permitted to attend to other matters.
